

# Helping the daring invent and launch frontier technology that will make the world a radically better place.

## Driven by Artificial Intelligence and Human Ideals

Melt is a hardcore technology laboratory for creating, developing, and launching innovative ideas into astounding products and companies.

We believe in the power of ethical AI to increase human potential and invention. The company is driven by the core ethics of transparency, empathy and trust.

We start with the goal of challenging large problem areas, then prototyping and validating smart, scaleable solutions.

Founded in 2018, our mission is to leverage intelligent ability to build the best possible future, and empower the greatest number of people.

**Address:** 1 Adelaide St. E.  
30th Fl

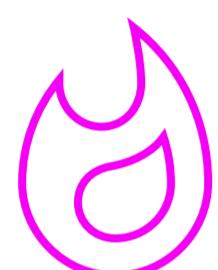

**Phone:** +1 844 909 0080

**Email:** info@melt.ai

Melt is a team of makers, engineers, and scientists with deep technical expertise who've come together to take invention out of the lab and into the real world. Based in Toronto Canada, [Emery Bishop](#) and [Monarch Wadia](#) cofounded Melt to give visionary ideas a place to reach their potential. We love the challenge of the seemingly impossible that, if successful, would profoundly impact people's lives.

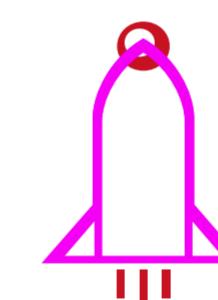

Interested? Come [join us](#).

## Core Capabilities

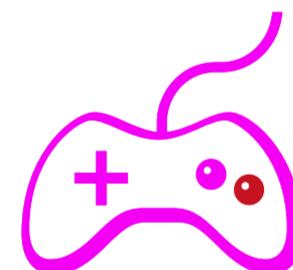

### Artificial Intelligence

Helping organizations across the globe to build, test, and deploy deep learning, data science and advanced analytics models.

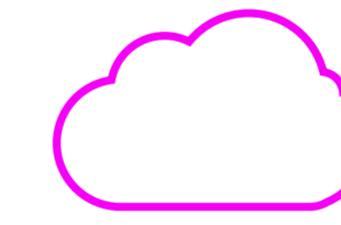

### Skunk Works

From zero to launch, our lab supports entrepreneurs and developers around the world to invent and radically innovate IP.

### Product Development

Building elite-class software and hardware products for startups to enterprise spanning AV/VR, IoT, blockchain, wetware and beyond.

### Cloud Computing

Deeply strategic deployments involving extremely secure, performant and scaleable cloud ops and cloud architected solutions.

## Build The Future

"The best way to predict the future is to invent it."  
- Alan Kay (1971 at PARC)

We're always looking to collaborate with talented visionaries and entrepreneurs who are passionate about developing ideas and companies that will define the future.
